- * Video show and tell, including “Driven to Distraction” & “Emotional Wreck”
- * Distribution of various traffic safety handouts
- * Looking at safe driving websites, including “Drive Safe PA”

KEY NOTE SPEAKER – WAYNE HARPER, Director of PennDOT Center for Traffic Safety

Teens and vehicles – a classic case of double jeopardy?

In this highly interactive seminar, instructors will be divided into teams to play the popular TV game show with categories all related to traffic safety

This four-hour seminar will also include an overview of Pennsylvania’s statewide highway safety plan and a perceptive driving test that the Center for Traffic Safety guarantees will make all attendees safer drivers.

The Center for Traffic Safety is a regional community traffic safety program, which utilizes Federal Act 402 highway safety funds to develop, and implement traffic safety programs intended to reduce traffic crashes, injuries, and deaths in Pennsylvania.

Presenters Wayne Harper and Laura Fagan have been working to develop and implement traffic safety programs for over 25 years. Also presenting will be Barb Zortmana, who recently returned to the Center after coordinating Pennsylvania SADD activity at the PA DUI Association for three years.

In addition to serving as director of the Center for Traffic Safety, Wayne is president of the PA DUI Association and team leader in PennDOT’s Region 2 Safety Team. He serves on a number of statewide planning and advisory bodies that oversee traffic creative ways to promote safe driving. Safety program development.

Laura and Barb are among the Commonwealth's most respected traffic safety specialists.
Don't expect Alex Trebek, but do expect to have a real blast while learning about

(another outlook)

PREPARING FOR TOMORROW

UPDATING YOUR TEACHING—

A GUIDE FOR KEEPING THE BEST OF YESTERDAY, ADDING THE CHANGES OF TODAY, AND PREPARING FOR THE CHALLENGES OF TOMORROW.

The seminar is geared as an in-service kind of program. An in-service day gives us a chance to step back and look at exactly what we are trying to do from both a safety and educational standpoint. Are you aware of changes in both the law and in the way that teaching is being done?

WHO SHOULD ATTEND? Owners as well as instructors should be part of this day. We have set our pricing structure so that the cost of a second or third individual from your company in only slightly more than the cost of one. We recognize the realities of today's economy; we also recognize the need to have our profession operate at the highest level possible because **WE SAVE LIVES.**

WHY SHOULD YOU ATTEND? When did you last do anything to improve your knowledge of road safety and of ways to bring this knowledge to your students? Would your instructor gain anything listening to someone outside our normal world of topics? Our justification for existence is that we are professionals and can, therefore, train students better. To have this adage be true, we need to be exposed to changes and upgrades. What we learn on October 14th will help us to be better at what we do. Your instructors will have a better idea of what our industry is all about and what role they have to play in creating safer drivers. They will also appreciate being given the chance to learn as well as to show just how much they actually do know.

Mark your calendar for October 14th. A fast moving day, set to improve what we know and how we present it. New Cumberland is near the Harrisburg exit of the turnpike.

Coffee time will start at 9:30. Wrap up will finish at around 3:15 PM.
